

BY AUTHORITY.**WATER NOTICE.**

Owing to the drought and scarcity of water, the residents above Judd street and on the slopes of Punahou Hill are requested to collect what water they may require for household purposes between the hours of 5 and 10 o'clock a. m.

ANDREW BROWN,
Superintendent Honolulu Water Works.
Honolulu, April 11, 1895. 13117

WATER NOTICE

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 7 to 8 o'clock a. m. and 5 to 6 o'clock p. m.

ANDREW BROWN,
Superintendent of Water Works
Approved:
J. A. KING,
Minister of the Interior.
Honolulu, March 12, 1895. 125517

Our Daily Bulletin.

Pledged to neither Sect nor Party,
But Established for the Benefit of All.

THURSDAY, APRIL 18, 1895.

"The finance question will undoubtedly be the chief issue in 1896," says the St. Louis Globe-Democrat. "It far exceeds the tariff or any other question in importance. A campaign of education on this issue is urgently demanded."

According to the Indianapolis Sentinel there is no intention on the part of the Republicans in the next Congress to make any changes in the tariff unless, indeed, it be in the way of reduction. That paper says that "the sole complaint of the country is not that the tariff was reduced too much, but that it was not reduced enough." If the Republicans as a party avow such convictions in advance, it will be the best endorsement the Democratic policy could have.

There is something like a commotion in the United States over recent failures of the "faith cure" and in three widely separated cases as to locality the Christian scientist practitioners have been arrested. One of these was in Missouri, one in Ohio and one in California. A Chicago paper that gives particulars of these cases has also telegraphic accounts of several other deaths of persons who had resorted to the faith cure. In one instance two children in a single household died of croup after being treated exclusively by the parents on the faith plan.

Minnesota Democrats evidently have the courage of their convictions in issuing a call for a convention to organize a national movement for free trade and direct taxation. While there is probably no hope for the success of such a movement in a single congressional period, yet by setting their mark high the Democrats will doubtless hasten the main desideratum to which the party has long been committed, namely, a reduction of the great burden of national taxation by which false economists contend the country is made prosperous.

In some of the campaigns for municipal reform in the United States, it is open to suspicion in many cases that the fine hand of the selfish politician intrudes. The following from the Washington Post is significant: "We gather from the newspapers in the various municipalities that one-half of the people are making a gallant struggle to turn out gangs of corrupt officials, while the other half are hard at work resenting the attacks of chronic office-seekers, who, arrayed in the garb of reformers, are trying to defame and disrupt the very best administrations the aforesaid municipalities ever possessed."

Preachers are out of their proper sphere when they get into politics. Their business is to lead men into habits of thought and action that will make them worthy citizens in politics as well as in other relations of life, and not to meddle themselves in political controversies that divide

every congregation of intelligent people. Dr. Talmage's public thanks-giving for the adjournment of Congress was nothing short of a gross profanation of the temple, but it has been discounted by the declaration of an Oklahoma minister that a certain member of the legislature was not fit to preside over a dog-fight. Another preacher is defending himself for libel in a pulpit assault on a candidate for police justice.

According to a horoscope cast by a Washington astrologer, just before Cleveland's inauguration—which the Advertiser reproduces—the close of the present administration will be marked by startling political changes in the United States. The soothsayer gives Mr. Cleveland the power to carry out, in the long run, pretty much anything that he undertakes. It is a pity some of our people were not warned of this power of Cleveland before, so that they might have tried to cultivate his gracious favor instead of striving to incur his resentment. With regard to the forecasted political eruptions, too, if the horoscope is correct, it will only go to prove the wisdom of the BULLETIN's warning against tying the avowed policy of the Hawaiian Government to the tailboard of the Republican party's cart.

Now that the war of the revolution is over, it is the duty of every man to support the existing form of government. Although things may not move with that cordiality that would ensure an everlasting peace, still they may be allowed to subside into that indifference without animosity that would allow either party to work out their best interests. All things considered it may be for the best, but time, the only arbitrator in such cases, must alone decide that James T. Stewart is a Plumber and will do your work in good shape and at figures that will give you satisfaction.

JAMES T. STEWART,
15 Bethel Street, Honolulu.

J. Pierpont Morgan has given \$20,000 to erect a stone sanitarium at Liberty, Sullivan County, N. Y., where consumptives will be treated. The structure will be on a tract of land consisting of 200 acres, which has already been purchased.

Mechanics' Home, corner Hotel and Nuanu streets, lodging by day, week or month. Terms: 25 and 50 cents per night; \$1 and \$1.25 per week.

The same old cry of "No Water" is again heard in tone of voice as loud and as fierce as ever. But with the new pumping station almost completed the complaints against the Water Works Department will soon be a thing in forgotten history. It looks just now as though the government is doing everything in its power to alleviate the misery and reduce the annoyance which naturally ensues through lack of sufficient water with which to make a cocktail.

Here are some figures over which you may ponder if you are interested in wire fences: The European wire which we carry in stock has been tested at the Iron Works and shows a tensile strength of 2760 pounds. The galvanizing passed through all the tests it is possible to put it and shows that it is as near perfect as it is possible to make it. The American wire we received a week or more ago, (and it is the best to be obtained in the States), was tested at the Iron Works and shows a tensile strength of about 700 pounds. These figures show which is the best wire, and which you should use in building the Jones Locked Fence—the best fence in the world.

The growing desire on the part of the people to save money accounts in a measure for the demand that has been made upon us for the Dietz Oil Stove. The people who have been using them here during the past six months are so well pleased with them that they recommend them to their friends. The fact that they cannot explode is a point in their favor; economy of fuel is another, and the wish of people to have a stove they can cook with and not get "all bet up" is another. Every one who uses a Dietz Stove will tell you that it is the best they ever had.

The time is here and house owners should begin painting up their dwellings. In the selection of material the fact that Hendry's Ready Mixed is better than any other should be considered. This mixture is made of pure white lead and oxide of zinc and the best quality of colors obtainable. The paints are made especially for us and are guaranteed to be first-class in every respect. They are good spreaders and retain their glossy appearance longer than any mixed paint sold elsewhere or even that which is mixed to order. We have them in quarts, half gallon and gallon containers and in all the shades desirable for either inside or outside work.

In localities where water is necessary for either irrigation or household purposes and where nature has left an aching void by its absence, or at least where the fluid is so far below the surface as to be invisible, we would suggest the digging of surface or artesian wells and to the owners or lessees of the land that they erect Aermotors. If we could write up the profits which have accrued among people on these Islands who use Aermotors it would surprise some folks who don't use them.

Opposite Sprockels' Block,
607 FORT STREET.

IT PROVED ::

to me that good goods and low prices are still appreciated in Honolulu. I therefore intend to give my customers and the public in general another opportunity. I beg to call attention to the special bargains in our line of

Wool Goods, Cashmere, Flannelettes & Flannels.

Sale will commence MONDAY, April 22d.

M. S. LEVY,
Fort Street

**You ask
the doctor**

Most women feel the need of something that will tone up the system and put new life into a tired body—stop that constant headache and feeling of nervousness. In almost every case the doctor will prescribe iron in some form, but iron is hard to take, discolors the teeth (no woman likes that) and induces constipation and other ill-effects. However, there is one iron medicine—only one—known as

**Brown's
Iron Bitters**

which is easy to take, palatable and pleasant. It is harmless and the most reliable iron medicine known. A bottle of this famous remedy will work wonders. It will fill out those thin cheeks, put energy into you, give you a new lease of life and won't stain the teeth. Thousands of testimonials prove these statements. The dose is small and the benefit great. Its good for all the family. Try it.

There are many fraudulent substitutes to be avoided. The genuine has two crossed red lines on wrapper.
